CMS.gov | Hospital Quality Reporting

An announcement from the Centers for Medicare & Medicaid Services (CMS):

On May 3rd, the Claims-based Measure report page is being upgraded in the Hospital Quality Reporting (HQR) System.

You will have access to a new measure detail view for THA/TKA PRO PM submissions. We're also planning to add detailed views for ePC-02 and ePC-07.

With this change, the Claims-based Measure report page will be renamed **Measure Details**.

You can still export your Claims-based Measure reports from this page.

To help you navigate this change, we will soon add a tutorial video to the HQR Playlist.

As we continue to enhance the HQR system, we'll keep you informed about any changes.

Log into HQR
