**Subject:** Claims-based Measures Gets New Name on May 6<sup>th</sup>

**CMS.gov** | Hospital Quality Reporting

An announcement from the Centers for Medicare & Medicaid Services (CMS):

On May 6<sup>th</sup>, we're launching a new Claims-based Measure (CBM) report page in Hospital Quality Reporting (HQR).

Users will have access to a detailed view of their THA/TKA PRO PM submissions. We are also planning on adding measure details for ePC-02 and ePC-07 submissions in the future.

With this change, we are renaming Claims-based Measure reports to **Measure Details**.

Here's a summary of the changes happening to HQR:

1. Adding measure detail view for three measures
2. Renaming Claims-based measure reports to Measure Details

You won't see any changes to how you export Claims-based Measure reports.

To help you navigate this change, we will soon add a tutorial video to the HQR Playlist.

As we continue to enhance the HQR system, we'll keep you informed about any changes.
