## Inpatient Psychiatric Facility Quality Reporting (IPFQR) Program Non-Measure Data Collection Tool 01-01-2017 (Q1 2017) through 12-31-2017 (Q4 2017)

This paper tool is provided as an optional, informal mechanism to aid IPFs in the collection of non-measure data for the Centers for Medicare & Medicaid Services (CMS) Inpatient Psychiatric Facility Quality Reporting (IPFQR) Program. If there are any questions or concerns regarding the use of this paper tool, please contact the IPFQR Program Support Contractor at <a href="mailto:IPFQualityReporting@area-m.hcqis.org">IPFQualityReporting@area-m.hcqis.org</a>.

Age Strata	Total Annual Discharges
Total Annual Discharges	

Age Strata	Total Annual Discharges
Children (≥ 1 year and < 13 years)	
Adolescent (≥ 13 years and < 18 years)	
Adult (≥ 18 years and < 65 years)	
Older Adult (≥ 65 years)	

Diagnostic Categories	Total Annual Discharges
Anxiety disorders (651)	
Delirium, dementia, and amnestic and other cognitive disorders (653)	
Mood disorders (657)	
Schizophrenia and other psychotic disorders (659)	
Alcohol-related disorders (660)	
Substance-related disorders (661)	
Other diagnosis – not included in one of the above categories	

To define the diagnostic categories above, please note the following:

- Categorization should be based on the primary diagnosis at discharge.
- Diagnostic code grouping to report non-measure data utilizes the categories developed for the Clinical Classifications Software (CCS) under the Healthcare Cost and Utilization Project (HCUP) by the Agency for Healthcare Research and Quality (AHRQ). See the instructions below to access crosswalks of CCS codes with International Classification of Diseases (ICD)-10-CM codes.

## Inpatient Psychiatric Facility Quality Reporting (IPFQR) Program Non-Measure Data Collection Tool 01-01-2017 (Q1 2017) through 12-31-2017 (Q4 2017)

**Instructions to Access Coding Crosswalks**: Access the appropriate crosswalk of CCS codes with **ICD-10-CM** codes and descriptions for discharges in calendar year 2017 at <a href="https://www.hcup-us.ahrq.gov/toolssoftware/ccs10/ccs10.jsp#download">https://www.hcup-us.ahrq.gov/toolssoftware/ccs10/ccs10.jsp#download</a>

- Discharges January 1, 2017, through September 30, 2017
  - Under Version 2017.1, click on <u>CCS for ICD-10-CM, FY 2017 (October 2016)</u> to open the zip file.
  - o Click on the [ccs\_dx\_icd10cm\_2017.csv] file to view the crosswalk.
- Discharges October 1, 2017, through December 31, 2017
  - Next to Version 2018.1, click on <u>CCS for ICD-10-CM, FY 2018</u> to open the zip file.
  - o Click on the [ccs dx icd10cm 2018 1] file to view the crosswalk.

Non-Measure Data/Sample Size Counts	Response
<ul> <li>Did your facility use global sampling? (Yes or No)</li> <li>If Yes, then enter the data requested in the next row to complete this section of the Non-Measure Data Collection Tool.</li> <li>If No, then this section of the Non-Measure Data Collection Tool is complete.</li> </ul>	
Please enter an aggregate, annual count of the sample size used.	

**Note**: If the IPF used the global sampling methodology described on page 14 of the IPFQR Program Manual to sample any of the SUB, TOB, or IMM-2 measures collected for program year 2019, even if global sampling was not used for HBIPS-5, then the IPF should answer "Yes" to the sampling question and provide the sample volume in the Global Sample Size field. If the IPF only sampled HBIPS-5 and no other measure that allows sampling, then the IPF should select "No" to the global sampling question. If IMM-2 was the only measure sampled, the IPF should take the sum of the two quarters of IMM-2 data collected in calendar year 2017 (i.e., January–March 2017 and October–December 2017) and multiply it by two to calculate the annualized sample size. If there are differing sample sizes between measure sets, select the larger sample size as it is more representative of the aggregate annual patient population.
