Happy New Year!

It's January – you've cleared away the confetti from your New Year's party and made your list of resolutions. Can we add one more to that list? Check your ASC's remittance advices (RAs).

Why should you check your RAs? Many systems push through updates in January, and those updates may inadvertently change the place of service on your facility's Medicare claims. Please ensure that your place of service is **24**. If not, these claims may not count toward your participation in the ASC Quality Reporting Program.

Still Have Questions About the New Specifications Manual?

The next Ambulatory Surgical Center Quality Reporting (ASCQR) Program webinar is scheduled for Wednesday, January 27, 2016. The webinar, titled, "**ASC 2016 Specifications Manual Update**," will answer all your questions!

Keep an eye out for a ListServe containing all pertinent registration information.

Here's to a good start to your quality reporting in 2016!

As always, please call us if you have any questions. Our number is 866.800.8756.
