Subject: Quality Reporting Center's Biweekly News Blast

Where are you in completing data submission? There are times when waiting is a good thing – waiting for bread dough to rise, waiting for the sun to set over the water – and there are times when there is no benefit to waiting. This is one of those times. Don't wait to enter your web-based measures to QualityNet!

Of course, we're talking about ...

- ASC-6 (Safe Surgery Checklist Use),
- ASC-7 (ASC Facility Volume Data on Selected ASC Surgical Procedures), and
- The two Endoscopy/Polyp Surveillance measures
 - ASC-9 (Appropriate Follow-Up Interval for Normal Colonoscopy in Average Risk Patients) and
 - ASC-10 (Colonoscopy Interval for Patients with a History of Adenomatous Polyps – Avoidance of Inappropriate Use).
- You can also enter ASC-11 (Cataracts: Improvement in Patient's Visual Function within 90 Days Following Surgery) if you'd like – it's voluntary this year.

The deadline for submitting the required data is **AUGUST 15** for encounters from 2015. It'll be here before you know it.

Not sure if your data are submitted? Click [here](#) for a quick look at your submission status.

We have materials to help you at qualityreportingcenter.com, such as a [video](#) with step-by-step instructions and a [submission guide](#). We're also available by email at ogrsupport@hsag.com or by phone at 866.800.8756.

No waiting required!
