Subject: Quality Reporting Center's Biweekly News Blast: Public Reporting

Ambulatory Surgical Center Quality Reporting News Blast

www.qualityreportingcenter.com

All year, ASCs have been doing the important work of reporting quality data through claims and through web-based tools, so the logical question is: where do all the data go? The answer: the Centers for Medicare & Medicaid Services' (CMS') *Hospital Compare* [website](#).

Public reporting is a big part of CMS' goal to promote better care, smarter spending, and healthier people. Planned for this December, new data for the ASC measures will be released to the public. These data represent encounters from calendar year 2015.

We'll be sending more information about the release in a subsequent ListServe soon!
