- Question:** Is there a limit to how many people can have administrative rights to the secure portal, or do you just have to register?
- Answer:** There is no limit to the number of Security Administrators. Each individual has to provide the appropriate documentation and be given secure access. This can be found on the QualityNet website at: <https://www.qualitynet.org/dcs/ContentServer?c=Page&pagename=QnetPublic%2FPage%2FQnetTier3&cid=1205442058760>.
- Question:** We are a stand-alone ASC. Will any of this presentation apply to us? It appears it is all geared toward Hospitals?
- Answer:** This presentation is geared for hospitals and the Hospital Outpatient Quality Reporting Program. However, there is a webinar that addresses ASCs and the Ambulatory Surgical Center Quality Reporting Program next week. You can go to www.qualityreportingcenter.com, look at the right hand area, you will see **Upcoming Events**, and click on the April 26 webinar. If you have any questions, call our helpdesk at 866.800.8756
- Question:** How can we find our hospital's current contact information to make sure it is correct?
- Answer:** Please call the Outpatient Support Contractor at 866-800-8756 and we can assist you in identifying you participating staff members.

- Question:** Will QualityNet create a Specification Manual for e-CQM's? The current documents are IT technical; however, we still need to validate and have to depend upon outdated specification manuals as our validation resource.
- Answer:** There are no e-CQM requirements for the Outpatient Quality Program at this time. If you have questions regarding the Inpatient measures, you can call their helpdesk at 844-472-4477.
- Question:** Do you have a webinar that details how to report on the Merit-based Incentive Payment System (MIPS)? Is this website helpful for that as well?
- Answer:** I'm sorry, no, because the MIPS program is not part of the Hospital Outpatient Quality Program. So, we would be unable to speak for them.
- Question:** Could you confirm that facilities do not have to submit data for OP-32, as it automatically pull over to CMS?
- Answer:** OP-32 is the Facility 7-Day Risk-Standardized Hospital Visit Rate after Outpatient Colonoscopy is a Claims Based measure. So, CMS will pull this data from your Medicare Claims. You do not have to manually submit any data.
- Question:** Anytime I run a report in the QualityNet and click on the magnifying glass, nothing shows up. I always have to do a download.
- Answer:** If the green download arrow works, you can select it from the same area.
- Question:** Are Inpatient Hospital Compare Preview Reports released as often as the Outpatient Preview Reports? It seems like we get more information regarding the Outpatient Reports.
- Answer:** This program does not have any information regarding the Inpatient Quality measures and reports. You can call the Inpatient Support Contractor at 866.800.8765
