Subject: Health Level Seven International® (HL7®) Fast Healthcare Interoperability Resources® (FHIR®) 101 Webinar

The Centers for Medicare & Medicaid Services (CMS) is hosting a webinar on the Health Level Seven International® (HL7®) Fast Healthcare Interoperability Resources® (FHIR®) standard to highlight the adoption of the next generation exchange framework by the healthcare community to advance interoperability. CMS is exploring FHIR's potential use in quality measurement and how it can provide a means for representing and sharing standardized information among clinicians and organizations.

As part of continued education and outreach for emerging standards, this webinar will be a beginner-level session on the FHIR standard for quality measure developers, clinicians, health information technology professionals, and other stakeholders. The presentation will focus on:

- A brief introduction to FHIR
- How to read and use the FHIR specification
- Navigating implementation guides and profiles for quality measurement
- An overview of FHIR operations for exchanging data
- Update on the progress of FHIR electronic clinical quality measures (eCQMs) and related specifications

Join us and register [here](#) for the FHIR 101 webinar taking place on February 3, 2021 at 3:00pm ET.

Please submit FHIR-related questions to fhir@esacinc.com.

For more information about FHIR see the Electronic Clinical Quality Improvement (eCQI) Resource Center [FHIR page](#).
