**Subject Line: CMS Webinar on Reporting Electronic Clinical Quality Measures (eCQMs) using the FHIR® Standard**

The Centers for Medicare & Medicaid Services (CMS) is hosting a webinar on reporting eCQMs using the Fast Healthcare Interoperability Resources® (FHIR®) standard. FHIR is the next generation standard for exchanging healthcare information electronically and the healthcare community is adopting to advance interoperability. CMS is exploring a potential transition to FHIR-based quality measurement and how it can support the sharing of standardized data electronically in clinical settings. Please join us for this webinar which will be a **technical, advanced-level** session for health information technology professionals supporting Eligible Clinicians and Hospitals in reporting CMS eCQMs.

*This webinar assumes the attendees have prior knowledge of Health Level Seven International® and FHIR terminology.*

This webinar will

- Review the Quality Measure architecture
- Cover the Data Exchange for Quality Measures (DEQM) FHIR Implementation Guide
  - Describe exchange roles and workflow steps
  - Review data exchange scenarios
  - Review measure reporting scenarios

**[Register here](#)** for the Reporting eCQMs Using the FHIR® Standard webinar taking place **on July 1, 2021, at 3:00 PM ET.**

You can find other FHIR-related educational materials on the Electronic Clinical Quality Improvement (eCQI) Resource Center [FHIR Education](#) page. Find additional eCQM-related standards information on the [eCQI Resource Center](#). Submit FHIR-related questions at [fhir@esacinc.com](mailto:fhir@esacinc.com).
