

CMS Hospital Inpatient Quality Reporting Program Validation Review for Reconsideration Request

If the Centers for Medicare & Medicaid Services (CMS) determines that a hospital **did not meet** any of the Hospital Inpatient Quality Reporting (IQR) Program requirements due to a confidence interval validation score of less than 75 percent and the hospital would like to request a reconsideration, the hospital **must** complete and submit this form, along with a copy of the entire medical record (as previously sent to the Clinical Data Abstraction Center [CDAC] Contractor) for the appealed element(s). This form and the entire medical record **must be received** by the Validation Support Contractor, **within 30 days** following the date of receipt of the Hospital IQR Program Annual Payment Update (APU) Notification Letter. CMS strongly recommends sending the medical record(s) to the “Validation Support Contract” group via the CMS Managed File Transfer (MFT) application: <https://qnetmft.cms.gov/>. Contact validation@telligen.com for assistance. If unable to submit via MFT, you may mail to:

<u>Patient ID*</u>	<u>Abstraction Control #*</u>	<u>Discharge Quarter*</u>	<u>Discharge Date*</u>	<u>Sepsis Data Element Name*</u>	Rationale: Please provide written justification in the space below for each appealed data element classified as a mismatch. Mismatched data elements that affect a hospital’s validation score would be subject to reconsiderations. Supplemental information that was not located in the original medical record sent to the CMS Clinical Data Abstraction Center (CDAC) cannot be accepted.

***These elements are displayed on the Case Detail Report.**
