Accessing COVID HCP Data in Your FSN Report

IPFQR Program FSN Report Overview

The Inpatient Psychiatric Facility Quality Reporting (IPFQR) Program Facility, State and National (FSN) Report provides information about the data that are submitted to the Centers for Medicare & Medicaid Services (CMS). The **facility rate** is specific to the facility accessing the report. The **state and national rates** are calculated approximately 30 days following the end of the submission period. This information is provided to allow an individual facility to compare its facility-specific rates with state and national averages for each measure.

This reference tool focuses on accessing and interpreting COVID-19 Vaccination Coverage Among Health Care Personnel (COVID HCP) measure data submitted to the National Healthcare Safety Network (NHSN) at the Centers for Disease Control and Prevention (CDC) for the IPFQR Program of CMS.

Running and Viewing Your IPF's FSN Report

The New HQR is Coming

We are hard at work behind the scenes to modernize Hospital Quality Reporting. Over the next year you will see many exciting new features to help you execute your responsibilities faster, and with more confidence.

New! Check out the navigation on the left:

- All features and functions are now available in the navigation
- Tasks are clearly divided - move from one to another with ease

Here are some of the key features of the new Hospital Quality Reporting

Intuitive Interfaces Intuitive interfaces means you always know where you are within the system.	Simple Submissions We've taken the guess work out of submitting data, via a file or a form. All from one central location.	Advanced Security Security & Access is now easy to manage with our new suite of Access tools. Effortlessly add or modify anyone's permissions.	Reliable Calculations Accurate data, with real-time validation. No second guessing. No more waiting.

Interpreting Your IPF's COVID HCP Measure Data in the FSN Report

The table shown on the next page only interprets COVID HCP measure data and is slightly different from the one that will appear in a future iteration of this guide. A future version of this guide will show the FSN report's remaining columns. Note, COVID HCP measure data will only display in the FSN report after data files from the CDC's NHSN system are uploaded into the CMS *HQR Secure Portal*.
