Introduction

CMS will provide facilities with IPF-Specific Reports (ISRs) for their Inpatient Psychiatric Facility Quality Reporting (IPFQR) Program claims-based measures (CBMs) prior to public reporting for FY 2020.

- ISRs are confidential and allow facilities to preview results before results are made public.
- ISRs provide additional information to facilities, that is not available to the public, to help inform quality improvement activities.

IPFQR Program FY 2020 CBMs

Follow-Up After Hospitalization for Mental Illness (FUH)

- Added to the IPFQR Program in FY 2014 IPPS/LTCH PPS Final Rule and first publicly reported in December 2016
- Fiscal year (FY) 2020 public reporting (January 2020 Hospital Compare refresh):
 - Performance period: July 1, 2017–June 30, 2018

30-Day All-Cause Unplanned Readmission Following Psychiatric Hospitalization in an Inpatient Psychiatric Facility (IPF Readmission)

- Added to the IPFQR Program in FY 2017 IPPS/LTCH PPS Final Rule and first publicly reported in February 2019
- FY 2020 public reporting (January 2020 Hospital Compare refresh):
 - Performance period: July 1, 2016–June 30, 2018

Purpose

This presentation provides the IPF community with ways to access and use ISRs and supporting documents for the FUH and IPF Readmission measures.

Learning Objectives

At the end of the presentation, attendees will understand:

- How to access their ISRs and supporting documents.
- How to interpret FUH and IPF Readmission ISRs.
