Purpose

This presentation will provide PCHQR Program participants with a high-level review of the 2019 updates, with a focus on the Oncology: Medical and Radiation – Plan of Care for Moderate to Severe Pain (National Quality Forum [NQF] #0383/PCH-15) measure, program manual, and other resources.
Objectives

At the end of the presentation, participants will be able to:

• Apply the updated measure information form to accurately abstract NQF#0383/PCH-15 for the new measure specifications.

• Use the updated algorithm to visualize the data abstraction process for NQF#0383/PCH-15.

• Describe the updated sections of the 2019 PCHQR Program Manual

• Locate updated resources and tools on QualityNet and Quality Reporting Center.
PCHQR Program: CY 2019 Measures and Resources Update

Measure Updates
Structure of OCM and EBRT Tools

The following four tools are associated with the External Beam Radiotherapy (EBRT) for Bone Metastases measure and the Oncology Care Measure (OCM) for CY 2019:

- Measure Information Form
- Clean algorithm
- Population and sampling algorithm
- Data abstraction paper tool
2019 OCM and EBRT Updates

• NQF #0383/PCH-15
  o Apply the MIF and algorithms.
    ▪ Versions for 2018 and 2019 are currently on the QualityNet PCHQR Data Collection page.

• EBRT (PCH-25)
  o No updates were made to the 2019 EBRT tools.
  o This should only be reported once per quarter. If a course of treatment spans more than one quarter, attribute it to the date of the first encounter.
  o Apply the MIFs and algorithms:
    ▪ Versions for 2018 and 2019 are currently on the QualityNet PCHQR Data Collection page.
NQF #0383: MIF Updates

- Updated measure title, description, instructions and submission criteria
- Added denominator coding – CPT Service Codes
  - 99201, 99203, 99204, 99205, 99212, 99213, 99214, 99215 WITHOUT Telehealth modifier GQ, GT, 95, POS 02
- Added denominator coding – CPT Procedure Codes
  - 51720, 96401, 96402, 96405, 96406, 96409, 96411, 96413, 96415, 96416, 96417, 96420, 96422, 96423, 96425, 96440, 96446, 96450, 96521, 96522, 96523, 96542, 96549 and Denominator Criteria (M1000)
- Added denominator coding, CPT
  - 77427, 77431, 77432, 77435
- Denominator coding (Eligible cases), ICD-10-CM
  - Added C43.111, C43.112, C43.121, C43.122; C44.1021, C44.1022, C44.1091, C44.1092, C44.1121, C44.1122, C44.1191, C44.1192, C44.1221, C44.1222, C44.1291, C44.1292, C44.1921, C44.1922, C44.1991, C44.1992, C4A.111, C4A.112, C4A.121, C4A.122
  - Deleted C43.11, C43.12, C44.102, C44.109, C44.112, C44.119, C44.122, C44.129, C44.192, C4A.11, C4A.12
- Added Numerator Options
  - Performance met (M1001) and Performance not met (M1002)
NQF #0383: MIF Overview

PPS-Exempt Cancer Hospital Quality Reporting Program
Measure Information Form

Measure Name: Oncology: Medical and Radiation – Plan of Care for Moderate to Severe Pain

Measure ID#: NQF #0383, PCH-15

NQF Portfolio(s):
- 2012 Measure Applications Partnership (MAP) Hospice and Palliative Care Family of Measures
- American Institutes for Research (AIR) Patient and Family Engagement Measures
- Oncology Metrics

National Quality Strategy Priority: Effective Communication and Care Coordination

Type of Measure: Process

Improvement Noted As: Higher score indicates better quality

Measure Steward: American Society of Clinical Oncology (ASCO)

DESCRIPTION:
Percentage of patients, regardless of age, with a diagnosis of cancer currently receiving chemotherapy or radiation therapy who report having moderate to severe pain with a plan of care to address pain documented on or before the date of the second visit with a clinician.

INSTRUCTIONS:
This measure is to be submitted once for each new occurrence of cancer diagnosis during the performance period for patients in whom moderate to severe pain is present.
NQF #0383: Algorithm Denominator

1. **Start**
2. **Diagnosis of Cancer**
   - Yes
   - **Receiving Chemotherapy**
     - Yes
     - **Encounter/Visit During Measurement Period in which Chemotherapy Administered**
       - Yes
       - **Included in Denominator**
     - No
     - **Receiving Radiation Therapy**
       - Yes
       - **Encounter/Visit During Measurement Period in which Radiation Therapy Received**
         - Yes
         - **Included in Denominator**
       - No
       - No
       - **Pain screened as Moderate to Severe**
         - No
         - **Denominator**
         - Yes
         - **Included in Denominator**
3. No
   - **Not Included in Denominator**

Report this measure once during the measurement period.
NQF #0383: Algorithm Numerator
NQF #0383: Paper Abstraction Tool

Paper Tool
Oncology: Medical and Radiation: Plan of Care for Moderate to Severe Pain
(NQF #0383, PCH-15)
Quarter 1 2019 through Quarter 4 2019

This paper abstraction tool is provided as an optional, informal mechanism to aid PPS-Exempt Cancer Hospitals (PCHs) in the collection of the measures for the Centers for Medicare & Medicaid Services (CMS) PPS-Exempt Cancer Hospital Quality Reporting (PCHQR) Program. The tool is designed to collect patient-specific data; however, once abstracted, the data will need to be compiled and reported to CMS in aggregate quarters, along with the percentage. If there are any questions or concerns regarding use of this paper abstraction tool, please contact the PCHQR Program Support Contractor.

Patient Identifier: ____________________________

Treatment Date: ____________________________

Reporting Period: ____________________________

The information from each medical record will be used to determine the numerator and denominator in aggregate.

1. Diagnosis of Cancer – Is there a diagnosis of cancer? 
   a. If “Yes,” proceed to Receiving Chemotherapy.
   b. If “No,” the case will be excluded. Stop abstracting. The case will not be included in the numerator or denominator.
EBRT (PCH-25)

- NQF endorsement removed (effective March 22, 2018).
- NQF #1822 MIF and algorithms verbiage was removed and replaced with PCH-25 verbiage.
- There are no content updates to MIF and algorithms.
PPS-Exempt Cancer Hospital Quality Reporting Program Measure Information Form

Measure Name: External Beam Radiotherapy (EBRT) for Bone Metastases
Measure ID#: PCH-25
National Quality Strategy Domain: Effective Communication and Care Coordination
Type of Measure: Process
Improvement Noted As: Higher score indicates better quality
Measure Steward: American Society for Radiation Oncology (ASTRO)

DESCRIPTION: Percentage of patients, regardless of age, with a diagnosis of bone metastases and no history of previous radiation who receive EBRT with an acceptable fractionation scheme

INSTRUCTIONS: This measure is to be reported once per reporting period for patients, with a diagnosis of bone metastases and no history of previous radiation to the site, who receive EBRT to treat metastatic bone lesion(s).

- All encounters that result from a single treatment plan should be considered one case with the case being attributed to the first date of administration of EBRT.
- Consider the administration of EBRT to different anatomic sites as separate cases.
- If the EBRT treatment course is initiated, but not completed, the case should still be included.
PCH-25: MIF Denominator and Numerator Statements

**DENOMINATOR:** All patients with bone metastases and no previous radiation to the same anatomic site who receive EBRT for the treatment of bone metastases

All patients, regardless of age

**AND**

Bone metastases diagnosis - International Classification of Diseases (ICD)-10-CM: C79.51, C79.52

**AND**

**Denominator Exclusions:**

Documentation of medical reason(s) including:

- The EBRT is used to treat anything other than bone metastases
- Previous radiation treatment to the same anatomic site (i.e., retreatment, re-irradiation, overlap with prior treatment field)
- Patients for whom the current EBRT is being administered via stereotactic body radiation therapy (SBRT) or stereotactic radiosurgery (SRS)
- Patients who are part of a prospective clinical protocol involving the use of radiation therapy
- Patients with femoral axis cortical involvement greater than 3 cm in length if the current EBRT is to that femur
- Patients who have undergone a surgical stabilization procedure if at the site of the current EBRT treatment
- Patients with spinal cord compression, cauda equina compression, or radicular pain documented as related to the bone metastases being treated with EBRT

**NUMERATOR:** All patients, regardless of age, with bone metastases and no previous radiation to the same anatomic site, who receive EBRT for the treatment of bone metastases with any of the following recommended fractionation schemes: 30Gy/10fxns, 24Gy/6fxns, 20Gy/5fxns, and 8Gy/1fxn

## Data Collection

### PPS-Exempt Cancer Hospital Quality Reporting (PCHQR) Program

The PCHQR program is comprised of multiple types of measures that are collected by participating PPS-Exempt Cancer Hospitals using a variety of tested data collection instruments. These measures have different sampling requirements, reporting methods, and data submission deadlines.

A facility can request an extension or waiver of various Quality Reporting Program requirements due to extraordinary circumstances beyond the control of the facility. To request an extension or waiver, complete and submit the **Extraordinary Circumstances Exception form** within 30 days of the disaster or extraordinary circumstance.

A facility may submit a Measure Exception Request Form due to no/low procedure volumes. Refer to [listserve](#) 2019-17-PCH for specifics.

PPS-Exempt Cancer Hospital Quality Reporting (PCHQR) Program

Overview

The Prospective Payment System (PPS)-Exempt Cancer Hospital Quality Reporting (PCHQR) Program was developed as mandated by Section 3005 of the Affordable Care Act (Public Law 111-148).

The PCHQR program is intended to equip consumers with quality-of-care information to make more informed decisions about healthcare options. It is also intended to encourage hospitals and clinicians to improve the quality of inpatient care provided to Medicare beneficiaries by ensuring that providers are aware of and reporting on best practices for their respective facilities and type of care.

To meet the PCHQR Program requirements, PPS-Exempt Cancer Hospitals (PCHs) are required to submit all quality measures to the Centers for Medicare & Medicaid Services (CMS), beginning with the Fiscal Year (FY) 2014 payment determination year. Participating facilities must comply with the program requirements set forth, including public reporting of the measure rates.

PPS-Exempt Cancer Hospital Quality Reporting (PCHQR) Program Eligibility

Eligible hospitals are described in section 1886(d)(1)(B)(v) and referred to as a Prospective Payment System (PPS)-Exempt Cancer Hospitals, or PCHs. These hospitals are excluded from payment under the Inpatient Prospective Payment System. The Centers for Medicare & Medicaid Services (CMS) has designated 11 hospitals as PPS-Exempt Cancer Hospitals, or Medicare PPS-Excluded Cancer Hospitals.

Final Rules for Hospital Inpatient Prospective Payment Systems

Information regarding the PCHQR Program can be found in the following Inpatient Prospective Payment System and Long Term Care Hospitals Prospective Payment System (IPPS/LTCH) Final Rule (FR) publications.

Measure Exception Form

Some hospitals may not have locations that meet the National Healthcare Safety Network (NHSN) criteria for CLABSI or CAUTI reporting and some hospitals may perform so few procedures requiring surveillance under the SSI measure that the data may not be meaningful for Hospital Compare or sufficiently reliable to be utilized for quality reporting purposes in a program year.

Reporting will not be required for these measures if the PPS-Exempt Cancer Hospital (PCH) performed less than a combined total of 10 colon and abdominal hysterectomy procedures in the calendar year prior to the reporting year. To indicate a measure is not being reported, a Measure Exception Form should be completed and submitted prior to the First Quarter data submission deadline for the applicable program year.

CMS releases December 2017 Hospital Compare preview reports

The Centers for Medicare & Medicaid Services (CMS) is making the December 2017 Hospital Compare preview reports available on QualityNet on October 2, 2017. The preview reports are for hospitals and facilities participating in the Inpatient Quality Reporting (IQR), Outpatient Quality Reporting (OQR), Inpatient Psychiatric Facility Quality Reporting (IPFQR), and PPS-Exempt Cancer Hospital Quality Reporting (PCHQR) Programs.

The Hospital Compare preview reports will be available from October 2 through October 31. Hospitals are encouraged to access and download reports early in the preview period in order to have time for a thorough review. The preview reports are only available during the preview period.
