# Purpose

This presentation will provide an overview of the Fiscal Year (FY) 2021 Inpatient Prospective Payment System (IPPS)/Long-Term Care Hospital Prospective Payment System (LTCH PPS) Final Rule as it relates to the following programs:

- Hospital Inpatient Quality Reporting (IQR) Program
- Hospital Value-Based Purchasing (VBP) Program
- Hospital-Acquired Condition (HAC) Reduction Program
- Hospital Readmissions Reduction Program (HRRP)
- Medicare and Medicaid Promoting Interoperability Program

# Objectives

Participants will be able to:

- Locate the FY 2021 IPPS/LTCH PPS Final Rule text.
- Identify finalized program changes within the FY 2021 IPPS/LTCH PPS Final Rule.

# COVID-19 Impact

- In recognition of the significant impact of the COVID-19 public health emergency and the limited capacity of health care providers to review and provide comment on extensive proposals, CMS limited annual rulemaking required by statute to focus primarily on essential policies, including Medicare payment to hospitals, and finalized proposals that reduce provider burden.
- We did not add new measures or remove measures in this final rule.

# COVID-19 Extraordinary Circumstances Exception (ECE)

- CMS has granted exceptions and extensions for certain deadlines under its ECE policy to assist health care providers who are directing their resources toward caring for patients and ensuring the health and safety of staff.
- In some instances, CMS granted the exceptions and extensions because the provider's response to COVID-19 may greatly impact collected data and that data should not be considered in a CMS quality reporting or pay-for-performance program.
- In other instances, the deadlines for data from clinical months and discharges prior to the COVID-19 public health emergency declaration fall during March, April, and May 2020.

# COVID-19 ECE

- These exceptions and extensions were announced in the Guidance Memo - Quality Reporting and Value-based Purchasing Programs on March 27, 2020.
  - <https://www.cms.gov/newsroom/press-releases/cms-announces-relief-clinicians-providers-hospitals-and-facilities-participating-quality-reporting>
- CMS later amended this in the Additional Policy and Regulatory Revisions in Response to the COVID-19 Public Health Emergency Interim Final Rule released on August 25, 2020.
  - <https://www.cms.gov/newsroom/press-releases/trump-administration-strengthens-covid-19-surveillance-new-reporting-and-testing-requirements>
- CMS created a Frequently Asked Questions document for hospital inpatient quality reporting.
  - <https://qualitynet.org/inpatient/iqr/participation#tab3>

# COVID-19 ECE

- For the hospital reporting programs, hospitals may elect to submit some or all excepted data, and we encourage hospitals to do so as part of monitoring quality of care on key metrics.
- Hospital submissions of measure data for Q4 2019, Q1 2020, and Q2 2020 are optional.
- For the value-based purchasing programs, **optionally** submitted Q4 2019 Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHPS) and healthcare-associated infection (HAI) measure data will be used for measure calculations and program scoring as the data reflect a time period before the COVID-19 Public Health Emergency.

# COVID-19 ECE

- Optionally submitted Q1 2020 and Q2 2020 measure data will **not** be used in measure calculations for program scoring.
  - However, the data will be included in confidential hospital reporting feedback reports (e.g., Provider Participation Reports; Facility, State and National Reports; and Submission Detail Reports) through the Hospital Quality Reporting system for quality improvement purposes.
- Claims from Q1 2020 and Q2 2020 will **not** be used in the claims-based measure calculations.
  - CMS will automatically exclude claims from measure calculation and scoring from the excepted time period.
  - Hospitals should continue to submit claims for reimbursement.

# COVID-19 ECE

- Hospitals do not need to request an ECE for measures and submissions covered under the COVID-19 exception. CMS is granting an exception for all hospitals for the measures and submissions covered under the COVID-19 exception.
- If a hospital believes their performance continues to be adversely impacted by this extraordinary circumstance through Q3 2020 and Q4 2020, they can submit an individual ECE request to CMS for the hospital reporting and value-based purchasing programs within 90 days of the date of the extraordinary circumstance<sup>1</sup>.
- For the Hospital VBP Program:
  - A granted individual ECE would exclude the hospital from the Hospital VBP Program in the fiscal year in which performance was impacted.
  - An excluded hospital will not incur the 2 percent reduction in payments, but it would also not receive incentive payments for the fiscal year.

<sup>1</sup> The deadline for CY 2020 electronic clinical quality measure (eCQM) ECEs is April 1, 2021.

## **Hospital IQR Program**

# Additional Proposed Hospital IQR Program Changes

## 2015 Edition certified electronic health record technology (CEHRT) Flexibility

- Beginning with the CY 2020 reporting period/FY 2022 payment determination, CMS expanded flexibility to allow hospitals to use either:
  - (1) Technology certified to the 2015 Edition criteria for CEHRT as was previously finalized in the FY 2019 IPPS/LTCH PPS Final Rule (83 FR 41537–41608)
  - (2) Technology certified to the 2015 Edition Cures Update standards as finalized in the 21st Century Cures Act final rule (85 FR 25642–25961)
- Watch for the Physician Fee Schedule Final Rule to be published later this fall.

# Finalized Overview of Hospital IQR Program Changes

- Quality Reporting Document Architecture (QRDA) Category I File Identification – Five Key Elements
- Certification and File Format Requirements of Hybrid Measures
- Calendar Year (CY) 2021 eCQM Measure Set Review
- Progressive Increase of eCQMs Reporting by Quarters Beginning with CY 2021/FY 2023
- Public Reporting of eCQMs Begins CY 2021/FY 2023
- Validation Changes

# QRDA Category I File Identification – Five Key Elements

CMS finalized the addition of the Electronic Health Record (EHR) Submitter ID to the four key elements for a total of five key elements:

- CMS Certification Number (CCN)
- CMS Program Name
- EHR Patient ID
- Reporting Period specified in the Reporting Parameters Section
- **EHR Submitter ID**

*QualityNet* assigns the EHR Submitter ID to submitters registering for system access to upload QRDA Category I files.

- Vendor EHR Submitter ID = Vendor ID
- Hospitals EHR Submitted ID = CCN

# Certification and File Format Requirements of Hybrid Measures

- The FY 2020 IPPS/LTCH Final Rule (84 FR 42507) finalized the requirement to use EHR technology certified to the 2015 Edition to submit data on the Hybrid Hospital-Wide Readmission (HWR) measure.
- Finalized core clinical data elements and linking variables must be submitted via QRDA Category I file format.
- CMS continued this policy and expanded the requirement to apply to any future hybrid measure adopted into the Hospital IQR Program's measure set.

# eCQM Measure Set: CY 2021 Reporting Period (FY 2023 Payment Determination)

<p><b>ED-2</b> Median Admit Decision Time to ED Departure Time for Admitted Patients</p>	<p><b>PC-05</b> Exclusive Breast Milk Feeding</p>	<p><b>STK-02</b> Discharged on Antithrombotic Therapy</p>	<p><b>STK-03</b> Anticoagulation Therapy for Atrial Fibrillation/Flutter</p>	<p><b>STK-05</b> Antithrombotic Therapy By End of Hospital Day 2</p>
<p><b>STK-06</b> Discharged on Statin Medication</p>	<p><b>VTE-1</b> Venous Thromboembolism Prophylaxis</p>	<p><b>VTE-2</b> Intensive Care Unit Venous Thromboembolism Prophylaxis</p>	<p><b>Safe Use of Opioids*</b> Safe Use of Opioids– Concurrent Prescribing</p> <p><i>*All hospitals are required to report beginning with the CY 2022 reporting period (FY 2024 payment determination).</i></p>	

# Form, Manner, and Timing of eCQM Data Submission

CMS finalized the following eCQM reporting and submission requirements:

CY Reporting Period/ FY Payment Determination	Number of Calendar Quarters to Report	Number of Measures to Report On Each Quarter
CY 2021/FY 2023	<b>Two</b> self-selected quarters	Four self-selected eCQMs
CY 2022/FY 2024	<b>Three</b> self-selected quarters	3 self-selected eCQMs + Safe Use of Opioids eCQM
CY 2023/FY 2025 and beyond	<b>Four</b> quarters	3 Self-selected eCQMs + Safe use of Opioids eCQM

**Note:** Meeting the Hospital IQR Program eCQM requirement also satisfies the CQM electronic reporting requirement for the Medicare Promoting Interoperability Program.

# Publicly Reporting eCQMs

- The public reporting of eCQM data will begin with the CY 2021 reporting period/FY 2023 payment determination and for subsequent years.
- Publicly reporting eCQM data will be made available to the public as early as fall 2022.
- Hospitals will have the opportunity to review their data before being made public during a 30-day preview period.
- Measure data, including eCQM data, are published on the *Hospital Compare* and/or [data.medicare.gov](https://data.medicare.gov) websites and the [Provider Data Catalog](#) websites.

# Finalized Validation Changes

Streamline validation processes under the Hospital IQR Program.

- Incrementally combine the validation processes for chart-abstracted measure data and eCQM data, including related policies, in a stepwise process.
- Incremental changes for validation affect the FY 2023 and FY 2024 payment determination.

# Validation Changes Affecting FY 2023 Payment Determination

## Chart-Abstracted Measures

- Validate measure data only from Q3 and Q4 of CY 2020.
- Validation affecting FY 2023 will not include Q1 and Q2 of CY 2021.

## Finalized Updates to Quarters Required for Validation Affecting the FY 2023 Payment Determination

Measures Submitted	Required Quarters of Data Validation
Chart-Abstracted Measures	3Q 2020
	4Q 2020
eCQMs	1Q 2020–4Q 2020

# Validation Changes Affecting FY 2024 Payment Determination

To align data submission quarters, use Q1–Q4 data of the applicable calendar year for validation of both chart-abstracted measures and eCQMs.

## Example: Quarter Alignment Used for Validation Affecting the FY 2024 Payment Determination

Measures Submitted	Required Quarters of Data for Validation
Chart-Abstracted Measures	Q1 2021
	Q2 2021
	Q3 2021
	Q4 2021
eCQMs	Q1 2021–Q4 2021

# Validation Changes Affecting FY 2024 Payment Determination

Finalized proposals affecting hospital selection:

- Use one single sample of hospitals selected through random selection and one sample of hospitals selected using targeting criteria, for both chart-abstracted measures and eCQMs.
- Expand targeted validation to include eCQMs, not just chart-abstracted measures.
- Reduce number of randomly selected hospitals from 400 to up to 200.

# Validation Changes Affecting FY 2024 Payment Determination

Under the aligned validation process, any hospital selected for validation will be expected to submit data to be validated for both chart-abstracted measures and eCQMs.

## Validation Process Beginning with Validations Affecting FY 2024 Payment Determination

<b>Selection Process</b>	<b>Number of Hospitals</b>	<b>Measure type</b>
Random Selection	Up to 200	Chart-Abstracted and eCQM
Targeted Selection	Up to 200	Chart-Abstracted and eCQM
Total:	Up to 400	Chart-Abstracted and eCQM

# Validation Changes Affecting FY 2024 Payment Determination

Combining scoring processes:

- Combined validation score for the validation of chart-abstracted measures and eCQMs with the eCQM portion of the combined score weighted at zero

## Finalized Process for Validation Affecting FY 2024 Payment Determination and Subsequent Years

	Quarters of Data Required for Validation	Payment Determination Criteria
COMBINED Process (Chart-abstracted and eCQM Validation): Up to 200 Random Hospitals + Up to 200 Targeted Hospitals	1Q 2021–4Q 2021	Chart-abstracted Measures: At least 75% validation score (weighted at 100%) <b>AND</b> eCQM: Successful submission of at least 75% of requested medical records

# **FY 2024 Payment Determination**

## **Require the use of electronic file submissions via a CMS-approved secure file transmission process**

- Submission of paper copies of medical records or copies on digital portable media such as CD, DVD, or flash drive are no longer allowed beginning with Q1 2021.
- Hospitals will be required to submit PDF copies of medical records using direct electronic file submission via a CMS-approved secure file transmission process.

# Validation Changes Affecting FY 2024 Payment Determination

## Increase eCQM reporting quarters

- As the number of reporting quarters for eCQMs change, case selection for validation will also change, specifically:

Total # of eCQM Reporting Quarters	Total # of eCQM Cases for Validation (8 cases/quarter)	Validation FY Payment Determination	Reporting CY
1	8	2023	2020
2	16	2024	2021
3	24	2025	2022
4	32	2026	2023

## **Medicare Promoting Interoperability Program**

# FY 2021 IPPS/LTCH PPS Final Rule Changes

- An EHR reporting period of a minimum of any continuous 90-day period in CY 2022 for new and returning participants (eligible hospitals and critical access hospitals)
- Maintain the Electronic Prescribing Objective's Query of Prescription Drug Monitoring Program (PDMP) measure as optional and worth 5 bonus points in CY 2021
- Modify the name of the Support Electronic Referral Loops by Receiving and Incorporating Health Information measure to the Support Electronic Referral Loops by Receiving and *Reconciling* Health Information measure

# Progressively Increase Reporting of eCQMs by Quarters

- Increase the amount of data required while keeping the same number and type of required eCQMs.
- Intend to produce more comprehensive and reliable quality measure data for patients and providers.
- Incremental approach provides hospitals and their vendors time to plan and build upon and utilize investments already made to their EHR infrastructure.

# Form, Manner, and Timing of eCQM Data Submission

CMS finalized proposals to establish the following eCQM reporting and submission requirements:

CY Reporting Period/FY Payment Determination	Number of Calendar Quarters to Report	Number of Measures to Report On Each Quarter
CY 2021/FY 2023	<b>Two</b> self-selected quarters	Four self-selected eCQMs
CY 2022/FY 2024	<b>Three</b> self-selected quarters	3 self-selected eCQMs + Safe Use of Opioids eCQM
CY 2023/FY 2025	<b>Four</b> quarters	3 Self-selected eCQMs + Safe use of Opioids eCQM

**Note:** Meeting the Hospital IQR Program eCQM requirement also satisfies the CQM electronic reporting requirement for the Medicare Promoting Interoperability Program.

# Publicly Reporting eCQMs

- Based on validation of eCQM data submitted from CY 2017 and CY 2018
- Aligns with CMS goal to encourage data accuracy and transparency
- Publicly reporting eCQM data beginning with the CY 2021 reporting period/FY 2023 payment determination and for subsequent years
- Publicly reported eCQM data will be made available to the public as early as fall 2022

# Publicly Reporting eCQMs (continued)

- Hospitals can review their data before being made public during a 30-day preview period.
- Measure data, including eCQM data, are published on the *CMS Care Compare* and/or [data.medicare.gov](https://data.medicare.gov) websites and the [Provider Data Catalog](#) websites.
- CMS will continue to assess eCQM data submitted in future years and hospitals will receive feedback on validation results.
- Updates will be conveyed through routine communication channels including, but not limited to, memos, emails and notices on *QualityNet* and [eCQI Resource Center](#).

# Additional Proposed Medicare Promoting Interoperability Program Changes

## 2015 Edition certified electronic health record technology (CEHRT) Flexibility

- Beginning with the CY 2020 reporting period/FY 2022 payment determination, CMS expanded flexibility to allow hospitals to use either:
  - (1) Technology certified to the 2015 Edition criteria for CEHRT as was previously finalized in the FY 2019 IPPS/LTCH PPS Final Rule (83 FR 41537–41608)
  - (2) Technology certified to the 2015 Edition Cures Update standards as finalized in the 21st Century Cures Act final rule (85 FR 25642–25961)
- Watch for the Physician Fee Schedule Final Rule to be published later this fall.

## **Hospital VBP Program**

# FY 2021 Estimated Funds for Hospital VBP Program

- Under section 1886(o)(7)(C)(v) of the Social Security Act, the applicable percent withhold for FY 2021 is 2.00 percent.
- The estimated total amount available for value-based incentive payments to hospitals paid under the IPPS for FY 2021 is approximately \$1.9 billion.

# FY 2021 Tables 16, 16A, and 16B

- Table 16 (Proxy Adjustment Factors)
  - Table 16 is based on FY 2020 Total Performance Scores (TPSs).
- Table 16A (Updated Proxy Adjustment Factors)
  - CMS intends to update Table 16 as Table 16A in the IPPS final rule to reflect changes based on more updated MedPAR data.
  - Table 16A is available on CMS.gov at <https://www.cms.gov/medicare/acute-inpatient-pps/fy-2021-ipp-final-rule-home-page#1735>.
- Table 16B (Actual Incentive Payment Adjustment Factors)
  - After hospitals have been given an opportunity to review and correct their actual TPSs for FY 2021, CMS intends to display Table 16B in the fall of 2020.

## **HAC Reduction Program**

# Summary of FY 2021 Finalized Proposals

In the FY 2021 IPPS/LTCH PPS Final Rule, CMS finalized five policies:

1. To automatically adopt applicable periods beginning with the FY 2023 program year
  - CMS will automatically advance the performance periods for measures included in the program by one year every subsequent program year
2. To update the definition of *applicable period* at 42 CFR 412.170 to align with the automatic adoption policy

# Summary of FY 2021 Finalized Proposals (continued)

3. To align hospital data submission quarters with Hospital IQR Program validation
4. To align hospital selection process with the Hospital IQR Program and reduce the pool of hospitals selected for validation from “up to 600” to “up to 400” beginning with CY 2021 validation
5. To require electronic submission of records for validation via a CMS-approved secure file transmission process beginning with CY 2021 validation
