A Look Ahead

Goodbye, retired measures

- IPFs collected Timely Transmission of Transition Record measure data for the last time in CY 2021.
- CY 2021 was also the last year that CMS calculated rates for the Follow-Up After Hospitalization for Mental Illness measure.

COVID HCP Measure

IPFs will continue to collect and report data for the COVID HCP measure on a monthly basis to meet requirements for the FY 2024 payment determination.

FY 2024 COVID HCP Measure Data Submission Requirements

Reporting Period	Submission Period
Q1 2022	Jan 1, 2022–Aug 15, 2022
Q2 2022	Apr 1, 2022–Nov 15, 2022
Q3 2022	Jul 1, 2022–Feb 15, 2022
Q4 2022	Oct 1, 2022–May 16, 2022

Follow-Up After Psychiatric Hospitalization Measure

CMS will calculate the claims-based Follow-Up After Psychiatric Hospitalization (FAPH) measure for the FY 2024 payment determination onward.

- The FAPH measure is an expanded and enhanced version of the Follow-Up After Hospitalization for Mental Illness (FUH) measure that addresses the percentage of Medicare fee for service (FFS) beneficiaries who were discharged from an IPF with a principal diagnosis of select mental illness or substance use disorders (SUDs) for which the patient received a follow-up visit for treatment of mental illness or SUD.
- FAPH is a claims-based measure and does not require chart-abstraction nor data entry on the part of the IPFs nor their vendors.
