From: Hospital Inpatient Value, Incentives, and Quality Reporting Outreach and Education Support Contractor
Sent: June 29, 2022
To: Inpatient Psychiatric Facility Quality Reporting (IPFQR) Program ListServe
Subject: Announcement: FY 2023 IPFQR Program Data Submission and Verification Checklists Available

The Inpatient Psychiatric Facility Quality Reporting (IPFQR) Program checklists for submission, review, and verification of fiscal year (FY) 2023 aggregate data and administrative requirements as well as the criteria to identify questionable data are available for download from the QualityNet [IPFQR Program Resources](#) webpage and the IPFQR Program's [Resources and Tools page](#) on the Quality Reporting Center website.

The checklists are available to assist inpatient psychiatric facilities (IPFs) with meeting the August 15, 2022, data submission deadline. They provide guidance on submitting data and the Data Accuracy and Completeness Acknowledgement (DACA) via the Hospital Quality Reporting (HQR) System. The checklists also outline the steps to ensure completion of all administrative requirements. CMS will provide information about voluntary patient-level data submission for FY 2023 soon.

The criteria to identify questionable data are provided to help IPFs identify measure data that may have been entered in error, may be invalid, or may exceed normal parameters prior to the August 15, 2022, deadline for fiscal year (FY) 2023 payment determination.

We recommend that you complete and submit the [Hospital Contact Change Form](#) to ensure we have the correct contact information for your facility in our system. As the data submission deadline approaches, if your facility has not submitted all necessary data, we will contact the personnel on file.

Please do not respond directly to this email.
