Expert to Expert Webinars VTE, STK/PC-05, and ED-2 Now Available On Demand

The Joint Commission, Centers for Medicare & Medicaid Services and Mathematica are offering On-Demand webinars (viewers watch at their convenience) that are rebroadcasts of previous live webinar events. Continuing Education credits are available for the webinars addressing VTE, STK/PC-05, and ED-2 eCQMs for 6 weeks (March 15 – April 25 at 11:59pm Central time). The remaining three webinars in the series that were broadcast in February-March 2022 (AU for Safe Use of Opioids, new Glycemia eCQMs, and The Joint Commission's Severe Obstetrical Complications eCQM), will be offered On Demand starting in April 2022.

The Expert-to-Expert webinar series provides a deep-dive into measure intent, logic, and other clinical/technical aspects of eCQMs to assist hospitals in their efforts to improve data use for quality improvement. This webinar series addresses the eCQM Annual Updates for 2022 eCQM implementation. Common questions from JIRA and other sources are addressed. After viewing the On Demand webinar, if participants have questions, the webinar handouts include instructions on how to submit follow-up questions.
