Subject: **CMS Randomly Selects Inpatient Hospitals for FY 2025**

The Centers for Medicare & Medicaid Services (CMS) has randomly selected the sample of hospitals for data validation of measures within the Hospital Inpatient Quality Reporting (IQR) Program and the Hospital-Acquired Condition (HAC) Reduction Program for the Fiscal Year (FY) 2025 payment determination / program year. It is possible for a hospital to be selected in consecutive years. The quarters included in the inpatient data validation efforts for FY 2025 are first quarter (Q) 2022 (1Q 2022), second quarter 2022 (2Q 2022), third quarter 2022 (3Q 2022) and fourth quarter 2022 (4Q 2022).

Selected hospitals will receive a direct email from the CMS Value, Incentives, and Quality Reporting Validation Support Contractor. The list of hospitals selected for FY 2025 validation, as well as validation resources, can be found on <https://qualitynet.cms.gov>. To access, select [**Hospitals – Inpatient**], and then [**Data Management**], followed by [**Data Validation**], and lastly [**Resources**]: <https://qualitynet.cms.gov/inpatient/data-management/data-validation/resources>.

CMS anticipates selecting an additional sample of up to 200 targeted hospitals in early 2023. All random and targeted hospitals selected for validation are subject to the same requirements. Hospitals selected randomly cannot also be selected as targeted within the same fiscal year.

Please do not respond directly to this email. For further assistance regarding the information contained in this message, please contact the Value, Incentives, and Quality Reporting Validation Support Contract at validation@telligen.com.
