Today, **May 02, 2023**, the Centers for Medicare & Medicaid Services (CMS) began releasing the July 2023 Overall Hospital Quality Star Rating Hospital-Specific Reports (HSRs) in the Hospital Quality Reporting (HQR) system. Hospitals have 30 days to review their reports before public reporting. The July 2023 preview period will occur from May 3, 2023 through June 1, 2023 for hospitals to preview their data that will be publicly reported in July 2023. The preview period is **not** a Review and Corrections period, during which hospitals can resubmit corrected data.

The July 2023 Overall Star Ratings were calculated using the measure data from the January 2023 refresh and the rereleased OP-13 measure data publicly reported in April 2023 refresh of Care Compare.
