Subject: Now Available on eCQI Resource Center: NEW Digital Quality Measurement Page

The eCQI Resource Center now includes a Digital Quality Measurement page. The Digital Quality Measurement page serves as a centralized location for information on CMS's Digital Quality Measurement Strategic Roadmap, and related activities to advancing digital quality measurement. This page aims to keep stakeholders updated on CMS's goal of transitioning all quality measures used in its reporting programs to digital quality measures (dQMs).

On the webpage you will find:

- A brief overview of CMS's Digital Quality Measurement Strategic Roadmap,
- Information on dQMs,
- Associated documentation, and
- Tools and resources (including related initiatives and projects)

CMS encourages users to explore the eCQI Resource Center and the Digital Quality Measurement page and submit questions or feedback to ecqi-resource-center@hhs.gov.
