CMS.gov | Hospital Quality Reporting

An announcement from the Centers for Medicare & Medicaid Services (CMS):

The Hospital Quality Reporting (HQR) System is now accepting XML test file submissions for the Inpatient Psychiatric Facility Quality Reporting (IPFQR) program. You can now submit a test XML file to ensure that the file format meets the requirements for FY 2025 submissions that will begin on July 1, 2024.

Please note:

- Test XML file uploads are considered practice, **will not** be calculated, and do not count toward the data submission requirements for the IPFQR Program.

- **Only** test files will be accepted for IPF patient-level records. Neither test nor production facility-level (FLD) XML files will be accepted.

You can submit a test file by logging into the HQR System, navigating to **Data Submissions**, and uploading your file via File Upload or the Chart-Abstracted tab. For additional guidance, please refer to the following webinars:
- *IPFQR Program: Patient-Level Reporting*
- *Navigating the IPF Module in the CMS Abstraction & Reporting Tool (CART)*

As we continue to enhance the HQR system, we will keep you informed about any changes.
