Subject: Request for Feedback on Draft eCQM Reading and Logic Guides

The Centers for Medicare & Medicaid Services (CMS) invites vendors and implementers to review and provide feedback on supporting resources for the upcoming electronic clinical quality measure (eCQM) annual update publication for 2025 reporting. Vendors and implementers are invited to review and comment on the ***DRAFT Guide for Reading eCQMs*** and ***DRAFT eCQM Logic and Implementation Guidance*** document for 2025 reporting from **January 3, 2024** to **January 23, 2024** using the Office of the National Coordinator for Health Information Technology (ONC) Project Tracking System [eCQM Issue Tracker](#).

- [CQM-6667](#): Annual Update for the 2025 Performance Period: Draft eCQM Logic and Implementation Guidance

Note that an ONC Project Tracking System account is required to post a question or comment. New users can [create an account](#) via the ONC Project Tracking System website.

The **Guide for Reading eCQMs** is designed to help providers, quality analysts, implementers, and Health Information Technology vendors understand eCQMs and eCQM-related documents. The guide provides background on an eCQM package, the building blocks of an eCQM, and an overview of understanding the human-readable format of the eCQM.

The **eCQM Logic and Implementation Guidance** document includes details to assist implementers, including defining how specific logic and data elements should be conceptualized and addressed during eCQM implementation. It also provides information to interested parties on how to use ONC Project Tracking (Jira), the CMS and ONC feedback system, to provide feedback, track issues, and ask questions about measure intent, specifications, certification, standards, and issues uncovered during implementation associated with the eCQMs.
