Subject: Preview the Future of Patient Assessment Reporting at the CMS Connectathon

For the first time, CMS is exploring using [Fast Healthcare Interoperability Resources \(FHIR®\)](#) for data collection and submission in a CMS statutory quality reporting program. [Register](#) for the [CMS Connectathon](#) to explore the **Patient Assessment Reporting Interoperability Tool (PARIT)**, a FHIR-based web application designed to support standardized collection and submission of patient assessment data.

Join the [Inpatient Psychiatric Facility Patient Assessment Instrument \(IPF-PAI\) track](#), to see a preview of PARIT and how it can submit patient assessment data using new FHIR tools.

The CMS Connectathon brings together health care leaders, implementers, and innovators to explore how emerging CMS policies and interoperability solutions are taking shape in real-world systems. So, whether you're just discovering FHIR, or already an experienced implementor, you can benefit from joining this track.

If you register, mark your calendars for the following sessions:

- Monday, June 22
 - Track Kick-Off (1:00-1:30pm)
- Tuesday, July 14
 - General Session Intro Presentation (TBD)
- Wednesday, July 15
 - Track Overview (9:00-10:00)
 - Data Element Library (DEL) and Internet Quality Improvement and Evaluation System (iQIES) Implementation Guides (IG) Overviews (10:00-12:00)
 - CMS Web App (PARIT) Demo (1:30-3:00)
 - Interactive Q&A Session (3:00-4:30)
