Hospital-level performance data is also available in downloadable portable document format (PDF) files. The report has an accompanying user guide with information about the contents of the HSRs.

The following measures are included in the reports:

<b>Measure</b>

**The Review and Correction period began May 14, 2026 and ends June 15, 2026.** During this period, hospitals are able to review the results in their HSR and submit questions about their calculations. Hospitals cannot request corrections to the underlying claims data or add new claims to the data extract during this period. Hospitals can review the data in their HSR and replicate their results using the information in their HSR and accompanying user guide.

CMS encourages hospitals to review their HSRs and submit questions about their calculations as soon as possible.
