Announcement from the Centers for Medicare & Medicaid Services (CMS):

Following the release of the DRA HAC Hospital-Specific Reports (HSR) and measure details, issues were identified impacting the display of patient-level data on reports. Updates have been made and patient-level data is now correctly displayed on the DRA HAC discharge files.

The Preview Period will begin on 10/14/2026 and conclude on 11/12/2026. During the Preview Period, hospitals can review the results in their updated HSR before the results are publicly reported on [Data.CMS.gov](https://data.cms.gov).

Please review your updated reports in the Hospital Quality Reporting (HQR) System. If issues persist, please contact [CCSQ Service Center](#).
