Subject: PCH Quality Reporting Program Performance Report Dashboard is Now Live in HQR

CMS.gov | Hospital Quality Reporting

Announcement from the Centers for Medicare & Medicaid Services (CMS):

Starting today, you can access the new PPS-Exempt Cancer Hospital (PCH) Quality Reporting Program Performance Report dashboard in the Hospital Quality Reporting (HQR) System.

This dashboard allows you to review your data in the way that works best for you. You can do a quick scan and verify that information was submitted, dig into the details and validate your data, or compare your results to state and national benchmarks.

All data elements from your PCH facility reports are now accessible via the performance report dashboard. You can still export your reports via CSV and PDF.

This dashboard for the PCH Quality Reporting Program is available beginning with FY 2027 submissions.

Questions? [Watch a short video](#) on how to view your Performance reports.

As the HQR System continues to improve, any changes will be communicated.
