Subject: Quality Reporting Center's Biweekly News Blast

Since Thursday marked the end of the 2015/2016 flu season, now is the perfect time to log in to the National Healthcare Safety Network (NHSN) and make sure the influenza vaccination data for your facility is submitted correctly.

Check that the season is correct (2015/2016), the facility type is correct (AMB-SURG), and your CMS Certification Number (CCN) is correct (here's a [tool](#) that matches your National Provider Identifier to your CCN in case you need it). Go ahead and print a screenshot of your completed submission while you're there.

If you've already entered your data (go you!), it wouldn't hurt to verify it by using our status listing [tool](#). We'll keep updating it until the end of the submission period. You have until May 15, 2016, to enter your data, but don't wait – go ahead and strike it off your to-do list!

We can help you with other items on your to-do list, such as ...

- ✓ Sending us any changes to your contact information (here's the [form](#)),
- ✓ Checking on the number of Medicare claims your ASC has filed so far this year (more about that later), and
- ✓ Filling out the roster for your fantasy baseball team.

Well, maybe not the last thing, but everything else. Call us at 866.800.8756 or email us at qcrsupport@hsag.com if you have any questions.
