The dog days of summer are here, and as the **August 15, 2017**, deadline approaches, we'll soon be hounding you to get your ASC's data submission to the QualityNet Secure Portal completed! If you've already submitted your data, check your submission entry to ensure the data were entered correctly (e.g., no outliers or errors made).

Just four web-based measures are due to be entered into the Secure Portal web-based collection tool by the **Tuesday, August 15** deadline:

-  **ASC-6** Safe Surgery Checklist Use
-  **ASC-7** ASC Facility Volume Data on Selected ASC Surgical Procedures
-  **ASC-9** Endoscopy/Polyp Surveillance: Appropriate Follow-Up Interval for Normal Colonoscopy in Average Risk Patients
-  **ASC-10** Endoscopy/Polyp Surveillance: Colonoscopy Interval for Patients with a History of Adenomatous Polyps – Avoidance of Inappropriate Use

You must have an active Security Administrator or Basic User with the data entry role to submit these measures collected from 2016 encounters.

If you need a refresher on the data submission process, check [qualityreportingcenter.com](http://qualityreportingcenter.com) for submission guidelines and a short video about the process.
