- Upcoming Ambulatory Surgical Center Quality Reporting (ASCQR) Program educational webinar:
 - April 26, 2017: Utilizing tools and resources available to optimize reporting
- Notifications of additional educational webinars will be sent via ListServe

Learning Objectives

At the conclusion of the presentation, attendees will be able to:

- ✓ Define the program requirements for the ASCQR Program.
- ✓ Identify and run *QualityNet* reports that help them monitor their progress.
- ✓ Locate and use the tools located on the Quality Reporting Center website.
- ✓ Describe the three most common obstacles/hurdles to successful reporting.

Program Requirements

Charting the Course

Minimum Case Volume

“ASCs with fewer than 240 Medicare claims per year during an annual reporting period for a payment determination year are not required to participate in the ASCQR Program for the subsequent annual reporting period for that applicable payment determination year.” (42 CFR 416.305(c))

Claims-Based Measure

ASC-12: Facility 7-Day Risk-Standardized Hospital Visit Rate after Outpatient Colonoscopy

- Data collection began with claims submitted in 2016 to affect payment year (PY) 2018
- No data abstraction responsibility for the facility

Claims-Based (QDC) Measures

Quality Data Codes (QDCs):

- ASC-1: Patient Burn
- ASC-2: Patient Fall
- ASC-3: Wrong Site, Wrong Side, Wrong Patient, Wrong Procedure, Wrong Implant
- ASC-4: All-Cause Hospital Transfer/Admission
- ASC-5: Prophylactic Intravenous (IV) Antibiotic Timing

What Are These Codes?

QDCs are:

- Required to be reported on a minimum of 50 percent of the facility's claims
- Non-payable specified Category II and/or G-codes Current Procedural Terminology (CPT) codes
- Reported via Medicare Fee-for-Service claims

Helpful Hints

Your claims should:

- Contain a minimum of two, a maximum of five, QDCs per claim.
- Have a billable charge and the QDCs on each page – *Don't bill the QDC by itself!*
- Position the billable charge above the QDCs.
- Have the facility's National Provider Identifier (NPI), not the physician's, in position 24J.

To research claims without QDCs:

- Ensure that QDCs were on the claim when it was submitted.
- Check with your software vendor regarding processing of zero charge line items.
- Be sure your clearinghouse is receiving and transmitting the QDCs.
- Verify the Medicare Administrative Contractor (MAC) is processing the QDCs along with the claims.

Monitoring Your Progress

Avoiding the Sand Bars

Monitoring QDC Submission

On the Remittance Advice (RA) look for:

- A billable charge and a minimum of 2 QDCs on every claim
- Facility's NPI on the claim, not the physician's NPI
- Place of service code 24
- A remark code of N620 or N572

Changes in Software

Make sure your billing software and/or electronic health record is capable of processing QDCs.

- Zero amount charge
- Confirm that any changes in your software do not prevent transmission of QDCs

Changes in Personnel

Not having someone available to report your data is not an acceptable reason to miss a deadline.

- Always have a minimum of two active QualityNet Security Administrators
- Always have at least two users with active NHSN accounts

Look-Up Tools

- Located on the support contractor website:
www.qualityreportingcenter.com
- Allows you to check:
 - Status of measures entered using a web-based tool
 - Availability of a Claims Detail Report for the ASC-12 measure
 - The CCN for your facility
