MEASURE UPDATES
OP-29

• OP-29: Endoscopy/Polyp Surveillance: Appropriate Follow-Up Interval for Normal Colonoscopy in Average Risk Patients
  ▪ Denominator change: “50 years and older” was changed to “50-75 years of age”

• Web-based submission tool
  ▪ This denominator change is not given as an option via the web-based submission tool.
OP-31: Cataracts–Improvement in Patient’s Visual Function within 90 Days Following Cataract Surgery

- Voluntary reporting
- Web-based submission tool: This measure will display as “Incomplete” unless data are entered.
OP-33 (1 of 2)

- OP-33: External Beam Radiotherapy for Bone Metastases (EBRT)
- Percentage of patients, regardless of age, with a diagnosis of painful bone metastases and no history of previous radiation who receive EBRT with an acceptable fractionation scheme
• Denominator Criteria:
  ▪ All patients regardless of age
  ▪ Bone metastases diagnosis codes: C79.51, C79.52 and CPT: 77402, 77407, 77412

• Hospitals reported difficulty establishing the population based on the previous codes.
Final Rule Review (1 of 2)

• The CY 2017 payment determination will utilize a three-quarter validation cycle.
  ▪ This will include: Q2 2015, Q3 2015, and Q4 2015.
  ▪ This data collection change will only affect the 2017 payment year, this will be a one-time change.

• Clinical Data and Population and Sampling submission deadlines will remain unchanged.
Final Rule Review (2 of 2)

• The data submission deadline for all the web-based measures is now May 15, 2016.

• The deadline for submitting a Reconsideration Request is the first business day on or after March 17 of the affected payment year.

• The deadline for withdrawing from the OQR Program is August 31st.
Hospital Compare (1 of 2)

• The preview period for the April release was from January 16–February 14, 2016.
• The Overall Hospital Star Rating has been added for the April release.
  ▪ For questions regarding this rating, contact: cmsstarratings@lantanagroup.com.
• Measures OP-6 and OP-7 are no longer reported.
• Imaging Efficiency measures and the Web-Based measures are not updated with the April release.
Emergency Department Volume (EDV) is based on the volume of patients submitted as the denominator used for OP-22.

- **Very High** – Values greater than 60,000 patients per year
- **High** – Values from 40,000 to 59,999 patients per year
- **Medium** – Values from 20,000 to 39,999 patients per year
- **Low** – Values below 19,999 patients per year
OQR PROGRAM REPORTS
OQR – Claims Detail Report

Purpose: To monitor the Medicare claims submitted by your facility that are in the OQR Program population within a certain quarter

- Medicare Fee-for-Service claims that have been finalized
- Ability to monitor claims submitted in final action status
- ED-Throughput claims are excluded

1 The Data As Of Date displays the date of the last time claims data was loaded for the Provider.

2 The Beneficiary Claim Number column will be updated monthly until approximately 15 days prior to the submission deadline for that quarter.

**Note:** The report includes only Medicare Fee for Service claims that have been finalized. Claims related to the OQR ED-Throughput population are excluded from this report.
Provider Participation Report

Purpose: To monitor a hospital’s compliance with program requirements

• Displays summary information of cases accepted into the CMS Clinical Data Warehouse
• Updated nightly with all data submitted and successfully processed the previous day

FREQUENTLY ASKED QUESTIONS
Question:

• If there are two Emergency Department (ED) visits on the same day and both visits are rolled into one claim, which visit would you abstract?
Answer:

• If two ED visits on the same day are rolled into one claim, abstract the first chronological encounter that meets the inclusion criteria for the population.
Pain Management

Question:

• The patient has a physician order for pain medication but no documentation that the medication was given. Can the time the order was written be used in abstraction?
Answer:

- No, an order for pain medication is not sufficient documentation that the patient actually received the pain medication.
**ED Departure Time**

**Question:**

- The patient had an inpatient admission order written at 1350. The patient was transported to the floor at 1422. At 1445 an order was written to change the patient admission status to Observation. What time should you use for *ED Departure Time*?
ED Departure Time Answer

Answer:

• The time you would abstract for *ED Departure Time* would be 1422. This is the time the patient physically left the emergency department.
Arrival Time Question

QUIZ TIME
Question:

- The patient arrives by ambulance and has an ECG done in the ED at 1253, an IV and O2 are recorded at 1300, and there are Nurses Notes documented at 1303. A note on the EMS run sheet indicates the patient arrived to the ED at 1240. What is the correct Arrival Time?
**Arrival Time Answer**

**Answer:**

- You would abstract 1253; this is the earliest documented time the patient arrived in the ED. You cannot use the EMS run sheet as a time of arrival.
Question:
• Our ED uses “Left AMA” when the patient leaves the ED after triage but before contact with provider, and no AMA forms are completed. How should I abstract this?
AMA Answer

Answer:

• In order to select AMA, there must be explicit documentation that the patient left against medical advice, as defined in the Specifications Manual.
Colonoscopy

Question:

• For OP-29, if there is documentation of a medical reason for a repeat colonoscopy in less than 10 years, such as diverticulitis or history of colon cancer, but it is not specifically stated as the reason for repeating the colonoscopy in less than 10 years, can it be used as documentation of a medical reason?
Colonoscopy

Answer:

• Yes. The reason for a follow-up in less than 10 years does not need to be explicitly stated in the same statement as the actual follow-up interval. If there is documentation of a medical reason, such as the examples in the question, and the follow-up interval documented in the colonoscopy report is less than 10 years, it is acceptable as documentation of a medical reason for not recommending at least a 10 year follow-up interval.
Colonoscopy

Question:

• The OP-30 Measure Information Form states “History of colonic polyps” is not an acceptable reason to exclude cases from the denominator. If there is documentation indicating a "large polyp was removed one year ago, in for follow-up" or “multiple polyps were removed during last colonoscopy a year ago,” how do we abstract these cases?
Colonoscopy

Answer:

• A history of colonic polyps cannot be used to exclude a case for a medical reason because that is one of the denominator inclusion criteria.
